

CERTIFICATION

CONCERNING SEARCH FOR AND PRODUCTION OF ENRON-RELATED  
INFORMATION

---

---

Program Office

A thorough search has been conducted of the above-named DOE Office (“Office”) (including all DOE offices and locations within the cognizance of that Office) for documents and information responsive to the four letters attached to the June 25, 2002 Memorandum from Lee Liberman Otis to the heads of all DOE departmental elements. In conducting that search, I and/or DOE employees under my direction, supervision and control: (a) searched in all Office locations where responsive documents reasonably might be found; (b) made inquiry of all Office employees who reasonably might have knowledge concerning the location of responsive documents or who might know the location or content of other responsive information; and (c) made inquiry of all DOE contractors who report to the Office and who, within the scope of their contracts with DOE, reasonably might possess documents or information responsive the requests. I and/or DOE employees under my direction, supervision and control have provided to the DOE Office of General Counsel all responsive documents and information that were located during this search, and have noted for the Office of General Counsel any documents that the Office believes are confidential, sensitive, or should in any way be protected from public disclosure.

I hereby certify that the above statements are true and correct to the best of my knowledge, information and belief formed after a reasonable inquiry.
