Subject: RM Numbered Memo 2004-10: Transmitting NARA's Partnerships
in Innovation -- Serving a Networked Nation

Please see the following notice from NARA regarding their upcoming symposium that addresses the electronic records challenges that face the Nation and the need for government, academic, and private sector partnerships.

The symposium will be held in College Park, MD, on November 15th and 16th at a cost of \$150. Please see the link below for more information and to register if you're interested.

Subject: Partnerships in Innovation - Serving a Networked Nation

National Archives at College Park, Maryland
The University of Maryland, College Park, Maryland
November 15 - 16, 2004

The National Archives and the University of Maryland, in collaboration with the San Diego Supercomputer Center, are pleased to sponsor a symposium that brings together leaders from different communities to address the electronic records challenge facing the Nation. A main theme of this symposium is that these challenges can only be addressed through partnerships that draw upon the innovative minds in universities, government agencies, and the private sector. Illustrations of such partnerships will be highlighted throughout the symposium.
